PAST, Preservation Awareness Source for Teachers 1984 "This PAST (Preservation Awareness Source for Teachers) notebook has been designed to serve as a guide to identifying and utilizing local historical recourses, particularly the built environment, in teaching. A variety of materials are included that can aid the teacher in planning and implementing local history projects."--Preface.

Comparative Sociology of Examinations Fumiya Onaka 2019-03-28

Contemporary societies are constructed, constricted, and constrained by various series of examinations. Governments of both Western and non-Western countries tend to conduct detailed, multi-layered and continuous systems of tests or examinations. International tests, such as PISA and TIMSS, have also been introduced to compare the relative performances of learners within diverse educational institutions across different countries. Examinations therefore provide a methodological pivot for comparing a range of societies. They enable us to contrast the West and the East; the North and the South; tribal and mass society; ancient and postmodern civilization; and so on. Comparing parallel societies from across Asia, the Middle East, Europe, and North America, this book proposes fundamental transitions in sociological research from system to process and from communication to composition through intensive studies on examinations. It uses ethnographies, interviews, questionnaires, documents, statistics, and big-data analyses to make comparisons on broad scales of time and space. In so doing, it suggests hypotheses encompassing different kinds of societies in human history, including those in the Axial Age and the Modern Ages.

One Version of the Facts Henry E. Duckworth 2000-10-12 In his engaging memoirs, *One Version of the Facts: My Life in the Ivory Tower*, Dr. Henry Duckworth takes readers from his student days in Winnipeg and Chicago in the 1930s to his time as president of the University of Winnipeg (1971-1981) and chancellor of the University of Manitoba. An accomplished physicist, he wrote the first definitive text in English on mass spectroscopy, discovered the last stable isotope (platinum), and helped create important programs at universities and at the National Research Council. He also served on numerous councils for scientific and university organizations, and rubbed shoulders with Nobel Prize winners at international conferences. With humour and modesty, Henry Duckworth recalls trends, changes, and crises he witnessed throughout his long university career. He offers his observations, his opinions, his "version of the facts," providing a special insight into critical years in Canada's university education history, as well as his own specialty, atomic research.

Acing Admissions Kavita Mehta, Kimberly Wright Dixit 2020-03-28 Acing Admissions is the only guide you need to help navigate the US undergraduate studies application process. Written with the international student in mind, Acing Admissions outlines frameworks for developing a college list, provides a step-by-step guide to submitting your application and describes the range of financial aid options available to international students. The book also gives detailed timelines with checkpoints for students who want to start planning as early as 8th grade. Practical advice is conveyed through anecdotes and case studies featuring real applicant stories, based on the authors' years of experience running an education consulting practice for students and families living outside the US.
