The World Book Encyclopedia 1987 An encyclopedia designed especially to meet the needs of elementary, junior high, and senior high school students.

Guide to the Presidency and the Executive Branch Michael Nelson 2012-08-13 This comprehensive two-volume guide is the definitive source for researchers seeking an understanding of those who have occupied the White House and on the institution of the U.S. presidency. Readers turn Guide to the Presidency and the Executive Branch for its wealth of facts and analytical chapters that explain the structure, powers, and operations of the office and the president's relationship with Congress and the Supreme Court. The fifth edition of this acclaimed reference completes coverage of the George W. Bush presidency, the 2008 election, and the first 3 years of the presidency of Barack Obama. This includes coverage of their handling of the economic crisis, wars abroad, and Obama's healthcare initiatives. The work is divided into eight distinct subject areas covering every aspect of the U.S. presidency, and all chapters in each subject area have been revised and updated: Origins and Development of the Presidency, including constitutional beginnings, history of the presidency and vice presidency, and presidential ratings Selection and Removal of the President, including the electoral process, a chronology of presidential elections, removal of the president and vice president, and succession Powers of the Presidency, including the unilateral powers of the presidency and those as chief of state, chief administrator, legislative leader, commander in chief, and chief economist The President, the Public, and the Parties, including presidential appearances, the president and political parties, the president and the news media, the presidency and pop culture, public support and opinion, and the president and interest groups The Presidency and the Executive Branch, including the White House Office, the Office of the Vice President, supporting organizations, the cabinet and executive departments, presidential commissions, and executive branch housing, pay, and perquisites Chief Executive and Federal Government, including the president and Congress, the president and the Supreme Court, and the president and the bureaucracy Presidents, their Families, and Life in the White House and Beyond, including the daily life of the president, the first lady, the first family, friends of presidents, and life after the presidency Biographies of the Presidents, Vice Presidents, First Ladies This new volume also features more than 200 textboxes, tables, and figures. Major revisions cover the supporting White House organizations and the president's role as chief economist. Additional reference materials include explanatory headnotes, as well as hundreds of photographs with detailed captions.

The Story of America John Arthur Garraty 1994

Let the People Rule: Theodore Roosevelt and the Birth of the Presidential Primary Geoffrey Cowan 2016-01-11 The exhilarating, prescient story of the four-month campaign that changed American politics forever. Let the People Rule tells the exhilarating story of the four-month

campaign that changed American politics forever. In 1912 Theodore Roosevelt came out of retirement to challenge his close friend and handpicked successor, William Howard Taft, for the Republican Party nomination. To overcome the power of the incumbent, TR seized on the idea of presidential primaries, telling bosses everywhere to "Let the People Rule." The cheers and jeers of rowdy supporters and detractors echo from Geoffrey Cowan's pages as he explores TR's fight-to-the-finish battle to win popular support. After sweeping nine out of thirteen primaries, he felt entitled to the nomination. But the party bosses proved too powerful, leading Roosevelt to walk out of the convention and create a new political party of his own. Using a trove of newly discovered documents, Cowan takes readers inside the colorful, dramatic, and often mean-spirited campaign, describing the political machinations and intrigue and painting indelible portraits of its larger-than-life characters. But Cowan also exposes the more unsavory parts of TR's campaign: seamy backroom deals, bribes made in TR's name during the Republican Convention, and then the shocking political calculation that led TR to ban any black delegates from the Deep South from his new "Bull Moose Party." In this utterly compelling work, Cowan illuminates lessons of the past that have great resonance for American politics today. Theodore Roosevelt Nathan Miller 1992 A comprehensive biography of Teddy Roosevelt covers the twenty-sixth president's life, from his sickly childhood, to San Juan Hill, to his "Big Stick" diplomacy and "Square Deal" domestic policies. 35,000 first printing. \$35,000 ad/promo. BOMC & History Alt.

American Ideal Paul M. Rego 2008-04-28 This book examines the political thought of Theodore Roosevelt, specifically his ceaseless desire and effort to reconcile America's individualistic tradition with the more collectivistic ideals of his Progressive brethren. Many scholars and lay-people alike cast Roosevelt as either 'conservative' or 'liberal,' but his political thought defies so simple an interpretation; it was more nuanced and had a larger purpose than mere ideology. A thorough study of Roosevelt's writings reveals his conviction that the concepts of personal autonomy and civic concern were not mutually exclusive. In fact, Roosevelt argued that it was because the principles of self-reliance and personal freedom were important that it was sometimes necessary for the entire community to use its collective power\_and, in some cases, the institutions of the government\_to enable individuals to do what they could not do alone. Moreover, while Roosevelt advocated and was responsible for a great expansion in the regulatory powers of the national government, he understood, in contrast to many other Progressive reformers, that inspirational rhetoric and positive example could be as good as institutional reform and the force of law in compelling individuals to support one another in a spirit of civic attachment. In his public writings, Roosevelt sought to shape the American mind in ways that he thought proper. Even his writings on nature, hunting, ranching, and military life were part of his political thought in that they were intended to teach Americans about the importance of balancing those individualistic values that are healthy and vital to a society (discipline, personal responsibility, and a strong work ethic) with such positive collectivistic values as an appreciation for mutual support and a concern for the good of the community. The Essential Guide to Writing History Essays Katherine Pickering Antonova 2020-01-09 The Essential Guide to Writing History Essays is a step-by-step guide to the typical assignments of any undergraduate or master's-level history program in North America. Effective writing is a process of discovery, achieved through the continual act of making choices--what to include or exclude, how to order elements, and which style to choose--each according to the author's goals and the intended audience. The book integrates reading and specialized vocabulary with writing and revision and addresses the evolving nature of digital media while teaching the terms and logic of traditional sources and the reasons for citation as well as the styles. This approach to writing not only helps students produce an effective final product and build from writing simple, short essays to completing a full research thesis, it also teaches students why and how an essay is effective, empowering them to approach new writing challenges with the freedom to find their own voice.

Making Sense of Political Ideology Bernard L. Brock 2005-10-01 Making Sense of Political Ideology explores the erosion of ties among ideology, language, and political action. Analyzing political language strategies, it shows how to dissect language so we can better understand a speaker's ideology. The authors define four political positions—radical, liberal, conservative, reactionary—and apply their techniques to contemporary issues such as the war on terrorism. They emphasize the dangers of staying trapped in political gridlock with no consensus for governmental direction and propose that the ability to identify and bridge positions can help political communicators toward constructing coalitions and building support for political action.
