Proceedings of the 1997 Academy of Marketing Science (AMS) Annual Conference  
Elizabeth J. Wilson 2015-01-20 This volume includes the full proceedings from the 1997 Academy of Marketing Science (AMS) Annual Conference held in Coral Gables, Florida. The research and presentations offered in this volume cover many aspects of marketing science including marketing strategy, consumer behaviour, global marketing, advertising, branding, marketing education, among others. Founded in 1971, the Academy of Marketing Science is an international organization dedicated to promoting timely explorations of phenomena related to the science of marketing in theory, research, and practice. Among its services to members and the community at large, the Academy offers conferences, congresses and symposia that attract delegates from around the world. Presentations from these events are published in this Proceedings series, which offers a comprehensive archive of volumes reflecting the evolution of the field. Volumes deliver cutting-edge research and insights, complimenting the Academy's flagship journals, the Journal of the Academy of Marketing Science (JAMS) and AMS Review. Volumes are edited by leading scholars and practitioners across a wide range of subject areas in marketing science.

An Immaculate Misconception Carl Djerassi 2000-06-21 One of the most challenging issues of the 21st century is the impending separation of sex (in bed) and reproduction (under the microscope) as a result of recent advances in contraception and assisted reproduction. Many of the ethical and societal issues

associated with these new reproductive technologies, notably intracytoplasmic sperm injection (ICSI), are raised in an unusual format — namely in dialogic form — which is both entertaining and pedagogically informative. Contents: Act 1 Act 2 Readership: General. Keywords: ICSI; Intracytoplasmic Sperm Injection; Human Reproduction; Contraception; In Vitro Fertilization; Biological Clock; Male Infertility; Contraception; Sperm Donor Selection; Pre-Implantation Embryonic Screening Reviews: “Carl Djerassi's thoughtful new play ... a host of intriguing issues about medical ethics, parenthood, and the rights of child ... a welcome and successful experiment.” The Times, London “Stunning new play ... Wears scholarship lightly, using wit and humor to smuggle in serious scientific ideas.” The Economist “... wry and witty ... the play airs some of the ethical and social issues raised by in vitro fertilization ... appeals because of unusual plot, well-drawn characters, and the simple but effective touches of modern technology.” Science “... Brings science and theatre together in a way rarely seen ... an enjoyable and thought-provoking play.” Chemistry in Britain “The play is fast-paced, entertaining and sprinkled with witty dialogue ... fascinating.” New Scientist “An alternative to the usual fluff of the Edinburgh Festival Fringe.” The Independent “The triumph of Carl Djerassi's first theatrical work is to present the language of the laboratory in an involving, accessible fashion ... Engage your brain and see it.” The List, Edinburgh “Djerassi's writing exhibits wit and warmth... a good, healthy 90-minute drama.” Time Out “Engrossing entertainment ... This production of Carl Djerassi's comedy screen drama is pretty much faultless.” Stage “Djerassi has taken one of the most contentious, headline-grabbing and deeply personal issues on the front lines of modern science ... to write a play that is both intellectually engaging and personally dramatic.” San Francisco Examiner “The show [invites] an audience to stretch into the strange new territory of reproductive science ... it uses dramatic suspense to animate real-world issues of personal and social responsibility.” San Francisco Chronicle “A humdinger of a play ... excellent theater which engages its audience with a well written story, well directed, and well acted.” Marin Independent Journal “... unique combination of drama, wit, and science ... a fascinating production.” Barre-Montpelier Times Argus

The Principles of Clinical Cytogenetics Steven L. Gersen 2008-08-17 In the summer of 1989, one of us (SLG), along with his mentor, Dorothy Warb- ton, attended the Tenth International Workshop on Human Gene Mapping. The me- ing was held at Yale University in celebration of the first such event, which also took place there. This meeting was not open to the general public; one had to have contributed to mapping a gene to be permitted to attend. The posters, of course, were therefore all related to gene mapping, and many were covered with pretty, colorful pictures of a novel, fluorescent application of an old technology, in situ hybridization. Walking through the room, Dorothy remarked that, because of this new FISH technique, ch- mosomes, which had become yesterday's news, were once again "back in style. " Approximately three years later, a commercial genetics company launched a FISH assay for prenatal ploidy detection. A substantial number of cytogeneticists across the country reacted with a combination of outrage and panic. Many were concerned that physicians would be quick to adopt this newfangled upstart test and put us all on the unemployment line. They did not at the time realize what Dorothy instinctively already knew—that FISH would not spell the doom of the cytogenetics laboratory, but it would, rather, take it to new heights.
