Dreams Lilah Gran 2022-08-10 Twice a year, the Guardian Spread occurs, where humans are recruited and must travel through dreams to the world of Xatyr, bound by Guardians who protect the society. And the only way to go back is to fail the Spiritual Awakening, designed to test the soul, not the brain, where either passing or failing is not a choice. Elisia Abel is not your ordinary person, she remembers all of her dreams, and she keeps log of those dreams through her paintings - admired by many, but understood by nobody. One day, as she turned eighteen, she woke up in a dream told real but not really, to a world they call Xatyr. Guided by Kavaa'r, her Guardian, she must decide whether she wants to stay in the surreal world and figure out why everyone else there calls her special, or go back to the human world to where her only family is - her Dad. Will she fail the test she's bound to pass, or will she pass the test she wanted to fail?

168 Hours Laura Vanderkam 2010-05-27 There are 168 hours in a week. This book is about where the time really goes, and how we can all use it better. It's an unquestioned truth of modern life: we are starved for time. With the rise of two-income families, extreme jobs, and 24/7 connectivity, life is so frenzied we can barely find time to breathe. We tell ourselves we'd like to read more, get to the gym regularly, try new hobbies, and accomplish all kinds of goals. But then we give up because there just aren't enough hours to do it all. Or else, if we don't make excuses, we make sacrifices. To get ahead at work we spend less time with our spouses. To carve out more family time, we put off getting in shape. To train for a marathon, we cut back on sleep. There has to be a better way-and Laura Vanderkam has found one. After interviewing dozens of successful, happy people, she realized that they allocate their time differently than most of us. Instead of letting the daily grind crowd out the important stuff, they start by making sure there's time for the important stuff. They focus on what they do best and what only they can do. When plans go wrong and they run out of time, only their lesser priorities suffer. It's not always easy, but the payoff is enormous. Vanderkam shows that it really is possible to sleep eight hours a night, exercise five days a week, take piano lessons, and write a novel without giving up quality time for work, family, and other things that really matter. The key is to start with a blank slate and to fill up your 168 hours only with things that deserve your time. Of course, you probably won't read to your children at 2:00 am, or skip a Wednesday morning meeting to go hiking, but you can cut back on how much you watch TV, do laundry, or spend time on other less fulfilling activities. Vanderkam shares creative ways to rearrange your schedule to make room for the things that matter most. 168 Hours is a fun, inspiring, practical guide that will help men and women of any age, lifestyle, or career get the most out of their time and their lives.
