African Economic History 1999

The Post Civil War Somali Business Class Roland Marchal 1996

Foundations of Corporate Empire Karl Moore 2000 "The Sumerians invented temple capitalism; the Assyrians made it multinational; the Phoenicians evolved controls; the Greeks leapfrogged with an entrepreneurial model that replaced it; the Romans perfected a robust blend of autonomy and regimentation that flourished for four hundred years. Foundations of Corporate Empire puts all this under a microscope." Richard T. Pascale, associate fellow, Templeton College, University of Oxford "Foundations of Corporate Empire is a dreary title for a business book that turns out to be anything but. It is in fact a sweeping, yet remarkably readable history of globalization that marshals impressive evidence..." Report on Business Magazine From the cradles of civilization to the corporations of global economy, business empires have come and gone but the essence of economic enterprise has always been with us. This is a world in which enterprises have been shaped as much by what they are as what they do, and in which an understanding of where we've come from will aid our interpretation of where we can go. Every future has a foundation to be explored. "In this well-researched and highly readable book, Moore and Lewis persuasively argue that many of today's global economic institutions and structures are not as new as often proclaimed but the product of a long evolutionary process. Their conclusion that a historical perspective provides important clues about the future of globalization is thought provoking and worthy of broad debate." Cornelis A. de Kluiver, Dean, Peter F. Drucker Graduate School of Management "This fascinating book should serve as a timely reminder to those who seem to think that tomorrow can be managed with scarcely a backwards glance to yesterday. Compulsive reading for businessmen and politicians." Sir David Rowland, President, Templeton College, University of Oxford Foundations of Corporate Empire sketches the history of international business from the emergence of ancient Assyria around 2000 BC through the Phoenician, Carthaginian and Grecian periods up to the time of the Roman Imperium under Augustus, and then on to the medieval and modern eras ending with today's post-modern times. The history of these civilisations has developed around different economic models, which have regularly re-emerged across time and are still present today. Foundations of Corporate Empire looks at our past economic foundations to better understand where we are today and where we should be tomorrow. "A fascinating and important work, which deserves to be widely read." Professor Alister McGrath, Oxford University "Foundations of Corporate Empire offered me an eye-opening insight into how we have come to do business as we do. If you truly want to understand capitalism as we know it, read this book. Beyond any reasonable doubt, it proved to me the old saying that the more things change the more things stay the same." Professor D'Aveni, author of Hypercompetition: Managing the dynamics of strategic maneuvering

Business of Civil War Patience Kabamba 2013 Within the context of the absence of effective state sovereignty and the presence of numerous armed struggles for power, Nande traders have managed to build and protect self-sustaining, prosperous, transnational economic enterprises in eastern Congo. This book discusses the commercial enterprises of the Nande trust networks and the subsequent transnational community they have produced, thereby challenging the assumption that a "weak state" or a "failed state" or even a "collapsed state" can be presumed to signal a "failed" society. It demonstrates the fact that several sovereignties and property right systems can coexist side by side, reinforcing each other - an idea which seems inconceivable for those with a normative view of governmental institutions and state sovereignty. Rethinking the question of African state formation, the study

contributes to the formulation of a more rigorously transnational and local paradigms in the study of post-colonial African state formations. It constitutes an original contribution to critical theory of societal responses to processes of state implosion, and the anthropology of new social formations that emerge when states disintegrate, especially in war-torn Africa. The book also discusses issues related to the dynamics of conflict, new state formation, transnational trade network, ethnicity, and global political and economic governance. In the midst of abundant anti-ethnic literature on African studies, this study posits that there may be a renewed usefulness and necessity in theorizing the salience and continuing production of 'ethnic' differences in a manner that challenges the notion of ethnicity as merely a devious and divisive invention of colonialism that must simply be overcome.

The House of Stuart Maurice Ashley 1980 "The House of Stewart, or Stuart, is a European royal house. Founded by Robert II of Scotland, the Stewarts first became monarchs of the Kingdom of Scotland during the late 14th century, and subsequently held the position of the Kings of England, Ireland, and Great Britain. Their patrilineal ancestors (from Brittany) had held the office of High Steward of Scotland since the 12th century, after arriving by way of Norman England. The dynasty inherited further territory by the 17th century which covered the entire British Isles, including the Kingdom of England and Kingdom of Ireland, also maintaining a claim to the Kingdom of France. In total, nine Stewart monarchs ruled just Scotland from 1371 until 1603. After this there was a Union of the Crowns under James VI & I who had become the senior genealogical claimant to The Crown holdings of the extinct House of Tudor. Thus there were six Stewart monarchs who ruled both England and Scotland as well as Ireland (although the later Stuart era was interrupted by an interregnum lasting from 1649?1660, as a result of the Wars of the Three Kingdoms). Additionally, at the foundation of the Kingdom of Great Britain after the Acts of Union, which politically united England and Scotland, the first monarch was Anne, Queen of Great Britain. After her death, all the holdings passed to the House of Hanover, under the terms of the Act of Settlement 1701"--Wikipedia.

Since she was promoted to the head of the Lords Select Committee on Sanguinary Affairs, every workday for Mhari Murphy has been a nightmare. Mhari's most recent assignment takes her and a ragtag team of former *Laundry* agents across the pond into the depths of North America. The United States president has gone missing. Not that Americans are alarmed. For some mysterious reason, most of the country has forgotten the executive branch even exists. Who knew an egomaniacal, malevolent deity would have a soft spot for international relations? Scotland and the Sea Nick Robins 2014-01-21 Scotland's maritime heritage is a highly significant one, embracing as it does a quite outstanding contribution to Britain's development both as an empire and as the world's leading maritime power in the nineteenth century. Scottish engineering, ship-owning and operating, as well as business and entrepreneurial skills, played a major part in the success of the Merchant Navy, while Scottish emigrants took skills to every corner of the world, creating trade and wealth both abroad and at home. In terms of engineering, 'Clyde-built' was the Kitemark for the shipbuilding industry the world over. Scottish shipowners included household names such as Allan, Anchor, Donaldson and Henderson, while Scotsmen were instrumental in founding and, for much of the time, managing Cunard, British India, P & O, Orient, Glen and many other 'English' companies. The author tells an exhilarating story of energy and inventiveness, describing the remarkable navigational skills of the highlanders and the technological and business skills of the lowlanders, and relates the early development of the steamship, the

impact of emigration, the involvement with exploration and the development of trade routes, and the final flowering of the world's last great iron sailing ships. And the evidence is still here, in the Cutty Sark, the Denny test tank at Dumbarton, and the Burrell Collection at Pollock, all reminders of a remarkable story. As seen in Scottish Memories Magazine.

Jihad and Co. Aisha Ahmad 2017 The rise of militant jihadist groups is one of the greatest international security crises in the world today. Chain Her by One Foot Karen Anderson 1993-06-14 In this highly original volume of social history, Karen Anderson makes a provocative claim: the subjugation of women in seventeenth-century New France was linked with the brutal colonization of native Indian populations. Before colonization, the Huron and Montagnais tribes lived in gender-egalitarian societies. The domination of women by men was only one effect of French "civilization"--along with warfare, disease, famine and Jesuit proselytization--which combined to destroy Indian culture and sexual equality. Anderson's is an interdisciplinary, cross-cultural, feminist case study of the historical and political construction of gender and racial inequality.

Trading Cultures Heung Wah Wong 2015-06-01 This collection of original essays interrogates the nature of intercultural and intra-cultural encounters through anthropological case studies of Asia, Africa, and the Pacific Islands. The chapters show that parties involved in intercultural or intra-cultural encounters, each equipped with their own means and motivated by their own ends, reciprocally engage each other in a dynamic, emergent relationship. Through detailed empirical research, this volume seeks to advance the open question of how we may theorize the cultural interface.

Merchants to Multinationals Geoffrey Jones 2002-03-07 Merchants to Multinationals examines the evolution of multinational trading companies from the eighteenth century to the present day. During the Industrial Revolution, British merchants established overseas branches which became major trade intermediaries and subsequently engaged in foreign direct investment. Complex multinational business groups emerged controlling large investments in natural resources, processing, and services in Asia, Latin America, and Africa. While theories of the firm predict the demise over time of merchant firms, this book identifies the continued resilience of British trading companies despite the changing political

and business environments of the twentieth century. Like Japanese trading companies, they 're-invented' themselves in successive generations. The competences of the trading companies resided in their information-gathering, relationship-building, human resource, and corporate governance systems. This book provides a new dimension to the literature on international business through the focus on multinational service firms and its evolutionary approach based on confidential business records.

Empire Games Charles Stross 2017-01-17 Charles Stross builds a new series with Empire Games, expanding on the world he created in the Family Trade series, a new generation of paratime travellers walk between parallel universes. The year is 2020. It's seventeen years since the Revolution overthrew the last king of the New British Empire, and the newly-reconstituted North American Commonwealth is developing rapidly, on course to defeat the French and bring democracy to a troubled world. But Miriam Burgeson, commissioner in charge of the shadowy Ministry of Intertemporal Research and Intelligence—the paratime espionage agency tasked with catalyzing the Commonwealth's great leap forward—has a problem. For years, she's warned everyone: "The Americans are coming." Now their drones arrive in the middle of a succession crisis. In another timeline, the U.S. has recruited Miriam's own estranged daughter to spy across timelines in order to bring down any remaining world-walkers who might threaten national security. Two nuclear superpowers are set on a collision course. Two increasingly desperate paratime espionage agencies try to find a solution to the first contact problem that doesn't result in a nuclear holocaust. And two women—a mother and her long-lost daughter—are about to find themselves on opposite sides of the confrontation.
